

Dear Friends,

Over the last several years the Lord has allowed me the privilege of assisting Beth Alves of Increase International in leading and teaching in the International Strategic Training Institute (ISTI). I continue to be one of the instructors in the Institute but Mr... Ron Carl now oversees the program. It has been one of my most enriching experiences as we have trained up and sent out trained prophetic intercessors into their churches, communities and workplaces.

ISTI trains, equips and activates believers who desire an intensive walk with the Lord. The curriculum provides a comprehensive biblical foundation for intercessory prayer and the prophetic in both interpersonal and marketplace ministries. Topics are designed to provide a strong academic rigor with teaching to enrich character development and to identify applications for real life situations. Classes include instruction, small group interaction, hands-on application and activation. Upon completion of this course of study you will be a qualified, ethical, competent intercessor able to develop a marketplace ministry or a strong, effective prayer life or both.

Please read and pass on the attached information (Word Document). Sign up today for the next classes scheduled in Spring 2009.
